Amesbury is a **city of bold contrasts**: It is both **cosmopolitan** and **small-town**; **vibrant** and **sophisticated**; **young-at-heart** and yet full of history.

Escape the City and **discover** a former mill town with uptown sophistication. If you love a local brew or live music this weekend road trip is worth it. Stroll wide brick sidewalks and shop over 50 boutiques, galleries, and restaurants. Don't leave without a coffee from one of many local cafés.

Unwind in Amesbury on your **next weekend adventure**. Home to 710 acres of land dedicated to active recreation and open space uses, you'll **discover** why this quaint city is a state recognized Green

Community. Bring or rent a kayak or paddle board and hit the water of our urban beach. Check online schedules for SUPYO classes and full moon paddles.

A weekend of **family fun is waiting** for you nestled in this coastal region. The kids can pick their own seasonal fruits at a family run farm or **discover** the nostalgia of candlepin. The recently renovated Town Park with splash pad is a hot spot to cool down all summer long. Bring your best game and

spend time on our golf or disc golf courses, you'll be back for more.

Once known as the Carriage Center of America, the charm and industry of this River City is impressive. With **history around every corner** you'll **discover** over a dozen landmarks representing four centuries. Museums across the

city are full of life including John Greenleaf Whittier's Home and Museum which continues to play an important role in literature while Lowell's Boat Shop & Museum still educates young men and women on the craft of carving dories.
